

UNITED STATES GOVERNMENT

Memorandum

TO : AD/OEL

DATE: 29 June 1965

FROM : DAD/S&D

SUBJECT:

25X1A

I believe that it might be instructive to Wheelon and perhaps
[redacted] and others of OSA to pile all of the proposals that were received
up on a table and then indicate the depth to which the analysis to which these
proposals was studied. I think that [redacted] and the Committee have done 25X1A
an outstanding job and I think some mention of this fact from you or from
Wheelon would be appropriate. With the continuation of this type of work,
I feel we should have no problems at all in convincing NRO that we have
done a thorough job.
